**OBO**  
BETTERMANN

# The smart universal solution: flexible, simple and quick

1

The universal cover clamp is manufactured from spring-loaded stainless steel. This makes it completely resistant to corrosion and suitable for any surface, thereby enabling you to reduce stocks of clamps and covers.

A single clamp for all applications:  
fix the cover to duct bases on

- **Cable trays**
- **Mesh cable trays**
- **AZ small ducts**

Hook-on points at two levels  
maximise flexibility – whatever the  
application.

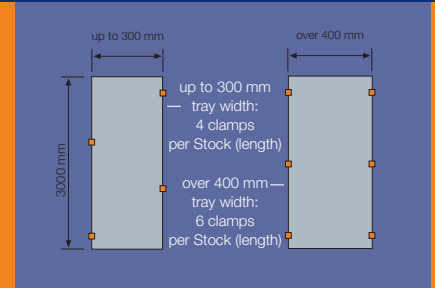

Effective: you can even fix overflow  
covers in place securely. Forget time-  
consuming drilling and modifications –  
the cover can be separated at any point.

Quick as a flash:  
simply position the clamp...

...press it into place, snap in,  
hey presto.

Recommended quantity per metre
