

OBO Construct KTS

The new planning software for
OBO cable support systems

Software-supported CAD planning for
AutoCAD full version or AutoCAD LT

KTS Cable support systems

OBO
BETTERMANN

Plan, draw, generate

The new planning dimension for OBO cable support systems

The integrated route editor allows easy planning of cable routes, plan drawing, automatic parts list generation and much more. A complete program to provide better and faster planning and installation.

Now available in multiple languages!

To provide increased effectivity and improved precision for your work, we can offer:

- ▶ Layout of the cable routes manually or by use of pre-programmed elements
- ▶ Creation of 2D drawings using the software
- ▶ Calculation of the usable cross-section
- ▶ Automatic calculation of the load of the standard suspended constructions
- ▶ Automatic schematic drawing of suspensions and panels in the drawing
- ▶ Integrated, menu-guided KTS article selection
- ▶ Printout of the enquiry and the additional information within the Microsoft Windows system
- ▶ Generation of detailed parts lists and transfer to a price enquiry
- ▶ Optional export of parts lists to Excel
- ▶ Optional update of the registered program by e-mail
- ▶ Integration of all approved OBO function maintenance systems in accordance with DIN 4102 Part 12

Important information:
OBO Construct KTS requires the full version of AutoCAD or AutoCAD LT 2000

You can order the planning and catalogue software directly from OBO at a cost of 80 euros. You can obtain additional information by calling the hotline +49 (0) 2373/89-1500, or by e-mail to hotline@obo.de.

Microsoft Windows and Excel are registered trademarks of the Microsoft Corporation, USA. AutoCAD is a registered trademark of Autodesk Corporation, USA.
