Profile connector, vertical

Item number: 6288090

Vertical profile connector with guide slits to lock convection grid profiles for the creation of a compact grid unit. The vertical convection grids can run some way down the front side of the trunking, although a gap should be left near the floor for cleaning, or should be run to the floor and fastened with the BVL floor panel. This version represents a variant of the convector panelling. Alternatively to the convection grid profiles, heating convector panelling can also be created with closed sheet steel panelling. The mesh slats are simply attached to the slat holder.

PP Polypropylene

Master data

Item number	6288090
Type	PVV N2 800
Description 1	Profile connector
Description 2	vertical for bracket BKN
Manufacturer	OBO
Dimension	32x34x800
Colour	Transparent
Material	Polypropylene
Smallest sales unit	1
Unit of quantity	Piece
Weight	51.2 kg
Weight unit	kg/100 pc.
