Profile connector, vertical

Item number: 6288066

Vertical profile connector with guide slits to lock convection grid profiles for the creation of a compact grid unit. The vertical convection grids can run some way down the front side of the trunking, although a gap should be left near the floor for cleaning, or should be run to the floor and fastened with the BVL floor panel. This version represents a variant of the convector panelling. Alternatively to the convection grid profiles, heating convector panelling can also be created with closed sheet steel panelling. The mesh slats are simply attached to the slat holder.

PP Polypropylene

Master data		
Item number	6288066	
Type	PVV N2 875	
Description 1	Profile connector	
Description 2	vertical for bracket BKN	
Manufacturer	OBO	
Dimension	32x34x875	
Colour	Transparent	
Material	Polypropylene	
Smallest sales unit	1	
Unit of quantity	Piece	
Weight	52.5 kg	
Weight unit	kg/100 pc.
