

Technical data sheet

7LSB M noise limit barrier, sold by the metre

Item number: 6288651

The noise limit barrier is used to reduce the transmission of airborne noise, e.g. when the trunking system is run through a wall between two offices. The noise limit barrier is made of glass wool, which, when delivered, has a diameter of approx. 30 mm. The goods sold by the metre are delivered in a box, the length of the material is 50 m. The material need not be greatly compressed during mounting.

The attenuation is approx. 40 dB.

Mineral fibres

Master data

Item number	6288651
Type	7LSB M
Description 1	Noise limiting barrier
Description 2	sold by the metre
Manufacturer	OBO
Dimension	30x50000mm
Colour	White
Material	Mineral fibres
Smallest sales unit	50
Unit of quantity	Metre
Weight	10.5 kg
Weight unit	kg/100 m
CO2 Footprint (GWP) Cradle-to-Gate	0,0171 kg CO2e / 1 Meter

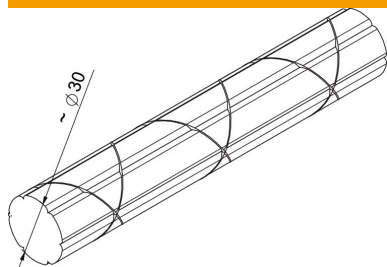

Technical data sheet

7LSB M noise limit barrier, sold by the metre

Item number: 6288651

Dimensions

Length	50,000 mm
Width	30 mm
Height	30 mm

Technical data

Version for	Loose strip
Halogen-free	yes
ROHS-conformant	yes
