

## Enjoy our support for your optimum planning

Accurate planning is essential for the maximum success of a project. Our team, consisting of engineers, construction engineers, structural engineers and technical draftspeople, knows the challenges of difficult projects and can support you during planning in the areas of:

Cable support systems

Lightning protection, earthing, surge protection

Underfloor systems

Cable routing systems

## OBO CAD SUPPORT

*Engineering and planning*

**Make use of our experts during your planning phase**

Simplify the organisation of your project

Enjoy our support for your optimum planning

## OBO can offer **support** for your project in the areas of:

- Cable support systems
- Lightning protection and earthing systems
- Underfloor applications in screed and concrete and on floors
- Wall and ceiling duct installations

The wide range of parameters gives you a high level of quality in the planning of your projects.

Support in:  
AutoCAD, Revit,  
BIM, Inventor,  
Solidworks

## We can support you in the **planning** of every **project phase**

- Technical planner consultation
- Creation of 3D and 2D planning (AutoCAD, REVIT, STEP and many more)
- Preliminary documentation work
- Material parts lists
- Invitation to tender text, mounting detail drawings/Typicals
- Static calculations
- Lightning protection: Protection area and risk analysis
- Mounting service for major projects

## Intelligent planning with the **3D BIM model**

Building Information Modelling (BIM) represents a new approach to planning. OBO can offer you the BIM models of our products on the **website**:

- In the online catalogue, directly by the product or
- At [obo.eu/bim-data](http://obo.eu/bim-data)

Or on the **BIM platforms**:

- MEPCONTENT
- BIMOBJECT

## After planning comes **mounting**

OBO Typicals offer you the **perfect supplement** to the AutoCAD models. Thanks to the 2D/3D graphics (DWG/STEP) of modules, installation becomes child's play. Our diagrams show article interdependency and the correct installation.
